Circuit Design Challenge

The event tests the designing skills of the participant. Rather particularly here skills to design an electronic circuit.

Problem statement- The problem statement will be provided after the registration of teams.

There can be maximum of 3 members per team. Maximum 10 teams can participate in the event. In case the participation exceed the limit, a quiz will be conducted. Each teams have to specify the components required by them before the deadline given by organizer.

 The decision of judges (event organizers) will be final.

 Registration of the event is started and students can register by mailing to organizers. The registration will be closed by 15 September.

Note for the 1st years – it is suggested to make team with 2nd, 3rd or 4th year students

Be ready all electronic geeks and think creatively to crack the design.

Organizers- Gaurav Juneja(ee10b014@iith.ac.in), B Sai Nisanth (ee10b009@iith.ac)
